HERITAGE HIKE

A 2-hour hike to one of the most ancient and sacred rock art sites in the world.

Nestled beside the historic Diepkloof Rock Shelter, Planet Xancara is a jewel in the Cradle of Human Culture in Southern Africa.

The cave's engraved ostrich shells, dating back 60,000 years, connect us to the first inhabitants. Vibrant paintings on the walls vividly tell tales of the past.

Bring hiking essentials—sturdy shoes, a hat, and a water bottle—to enhance your exploration of this timeless journey through nature and culture at Planet Xancara.

LAND EXCURSION

Take three magical excursions across our ancient lands.

On your first day, after a refreshing drink, we'll guide you to a nearby boulder, offering a mesmerizing view of the land for a magical sunset—a perfect start to your journey.

On the morning of Day 2, we take you on a beautiful morning hike (lasting 1.5 to 3 hours) to the sacred Diepkloof Rock Shelter, a site in the process of becoming a World Heritage site.

Return to the main camp for a relaxing lunch, followed by a Sunset Experience around our ancient rock amphitheatre, enjoying drinks and soaking the breathtaking views across the entire land.

BREATHE WITH HERBS

Experience a side to herbs you have never experienced before.

In ancient times, Tea Ceremonies served as conduits for the exchange of powerful information among individuals. Our Breathe with Herbs experience goes beyond the palate, delving into the realm of breath and the inherent wisdom within plants.

This unique journey unfolds not only through taste but also through the rich stories and rituals passed down by the bushmen and tribes we've encountered. Join us in exploring the profound knowledge embedded in nature, transcending time and cultures, as we breathe life into the stories that connect us with the wisdom of the ancients.
